

Samuel Cohen  
South Portland  
LD 511

I live in South Portland and I strongly encourage the Transportation Committee to vote "ought to pass" for LD 511. A trail of this kind would be an outdoors destination for generations to come. The benefits to our communities, including an influx of revenue from visitors and trail users, would be numerous. Our community's health would be improved, the environment protected, and it will provide a meaningful alternative for folks without access to more expensive means of transportation. Thank you for your consideration and please vote "ought to pass."
