

Meghan Ray  
Sanford  
LD 450

I am in favor of LD 450 - An Act to Lower Electricity Costs by Repealing the Laws Governing Net Energy Bills.

Mainers cannot afford to continue being taxed on services they do not use. The solar fields in Maine have developed too rapidly and do not produce enough energy in winter to make them cost efficient. The businesses and people of Maine cannot afford increasing taxes. The solution to Maine's economy is not increased taxes. We need to cut spending and reduce taxes in order for Maine to thrive once again. Because of this, I am in favor of repealing the solar tax.
