I am a retired 70 YO who is an avid equine trail rider residing in the MidCoast town of Brunswick and 20 yrs in Bowdoinham prior to that move. Maine seasons are limited as are trails for this growing sport. To further extend my time on trails I go to Aiken, SC in the winters but prefer Maine!

Ideally I would like to see a multi use gravel trail similar to the Eastern Trail which connects the Topsham trail to the Gardiner Trail. Besides the safety and recreational benefits, it could be a significant economic boost for the businesses in both downtown Bowdoinham and Richmond which have struggled for years.
