

Camille Soelberg  
Yarmouth  
LD 537

I support LD 537 because I believe minors need to have their privacy be protected, especially from adults who wish to do harm to the minors or who wish to get political gain by posting pictures and/or private information of minors. I teach in the Greely school district and it's extremely disheartening to think of the stress and pain a certain student has had to experience over the past weeks because of what adults posted concerning her. Let's protect our youth!
