

Deborah Capwell
BELFAST
LD 32

hello-

I would like to submit testimony against LD32 and LD257 and in support of Net Energy Billing.

-NEB provides cost savings for all ratepayers- nearly \$30 million in 2023.

-NEB strengthens the grid through upgrades paid for by solar owners SUCH AS MYSELF.

-Also, it increases equitable access, reduces peak demand, reduces greenhouse gas emissions, and lowers dependence on expensive imported fuels.

NEB has worked GREAT for me. Please do NOT end it!
