

Greg Soutiea
SPRUCE HEAD
LD 32

Please consider this testimony related to all 4 pieces of proposed legislation relating to NEB (LD 32, 257, 359, and 450).

I am glad to support this practice and believe it is a good thing for Maine and Mainers, however after being in operation for years now we see data that is showing that the practice is vastly unfair toward Maine businesses. I would like to support altering NOT REPEALING/ELIMINATING this program to ensure more fairness to those carrying the burden of the costs like the larger3-4 tiers of businesses.
