LD 511

I live in Portland, and I urge the Transportation Committee to vote in support of LD 511. An interim trail from Portland to Auburn would improve public health, protect the environment, connect to public transit, and provide options for people who don't drive, or simply want to drive less. I am increasingly fearful of walking and biking on roads in light of recent traffic fatalities and the increase of distracted driving. Trails offer alternatives that keep everyone safe, lower emissions, and increase health.

Please vote "ought to pass."
