

Testimony in Support of LD260

I'm a Maine resident of Brooksville. I've been fighting for equal rights since the 70s and I'm still here in 2025 asking my government representatives to respect and guarantee the rights of all people before the law.

Many Americans have fought long and hard for their civil rights. Let's show that Maine can put an end to that fight by passing LD260 which tells the country that in this state everybody is equal.

Thank you.
