

Drew Masterman  
RICHMOND  
LD 29

Thank you for this opportunity. I live in Richmond, Maine with my wife. I would like to respectfully and heartfully urge the Transportation Committee to vote in support of LD 29. An interim trail from Brunswick to Gardiner would improve public health, protect the environment, create recreational opportunities, and provide options for people who don't drive, or simply want to drive less. This is also a great opportunity for young people, such as the Civilian Conservation Corps, to learn about trail building. Please vote "ought to pass."
