

Anne Ferrara  
Brooksville  
LD 260

My grandmother was born on May 18th, 1880. She had to wait until she was 40 years old to vote in the USA. She instilled in me a love for our country, a love for democracy and a love for the right to vote granted to all regardless of race, creed, gender, etc. I am shocked that the ERA has not yet passed in our country, but I am thrilled that our beautiful state of Maine is promising dignity and protection for all its citizens with LD260. We are at an historical moment when nothing can be taken for granted. This is more than a civic responsibility for me; it is a moral and ethical one. Please pass LD260 so that all persons in this state will feel protected by law.
