

Alex Pine
Lewiston
LD 30

I live in Lewiston, and I ask the Transportation Committee to vote in support of LD 511. An interim trail from Lewiston Auburn to Portland would provide a valuable resource for the communities that it passes through. This trail will improve public health, protect the environment, connect to public transit, and provide another option for people who can't or don't drive. Consider the benefits the Eastern Trail has brought to Southern Maine. Having this valuable resource available to inland communities will be an amazing resource for residents and the region. Please vote "ought to pass."
