Good morning, as a lifelong smoker I am tired of being singled out! I see nip bottles and beer cans all over the sides of the roads! If you continue to keep upping the tax on cigarettes, myself as well as many more Mainers will have to switch to drinking! Ass there is already enough \$1 a beer drunks on the road, I would think that we guys would realize this is a bad idea. I have known of 3 women died before 50 years from drinking and have not met or heard of anyone dying from cigarettes before the age of 50. Tax the drunks!
