

Chelsey Berlin
Eastern Trail Alliance
LD 29

I am the executive director of the Eastern Trail Alliance, and I urge the Transportation Committee to vote in support of LD 29. An interim trail from Brunswick to Gardiner would improve public health, protect the environment, create recreational opportunities, and provide options for people who don't drive, or simply want to drive less. This would be an incredible asset to the people, communities, and economy of the Great State of Maine. Please vote "ought to pass."
