

Shannon Morton  
28 Cemetery Dr, Casco  
LD 133

We reside in Casco, we have contacted Cumberland County Sheriff's Office since November 2024 to present time whom intern reaches out to Animal Control . It is now March 1 ,2025.

We have not received a response from animal control at all. Our every morning starts out with disruption of loud dogs barking not of 1 but of two German shepherds 1 bull massif and a small dog of some sort. The dogs are left outside constantly barking and extremely loud, when owner is approached she completely ignores ( our frustration, ) for peace. It's not just mornings it's throughout the day as well. We are hard working people, it's a shame we cannot have peace in our everyday life's, it's like no one wants to help. I am beyond overwhelmed the nuisance is affecting our health, our sleep is disrupted being woke up by barking dogs, have to keep the door and windows closed to sound out the dogs. Come on only common sense to bring your dogs in if the going to disrupt the neighborhood, owners of these behavioral dogs she be held accountable and if Animal Control doesn't reach out then the sheriffs should be involved. Before mental health becomes an issue please your help is appreciated. Put yourself in our shoes . Something's got to change.
