LD 662

I urge you to vote OUGHT NOT TO PASS on LD 662, An Act to fund military sexual trauma liaisons. This piece of legislation is very poorly defined. This is all it says. It doesn't indicate what it defines as "sexual trauma liaisons." That is often a matter of opinion to some people and a way to punish someone to other people. I would say the military complex would be best to handle such an internal situation. They know the people involved. It seems very strange to make this part of any state regulation or law. We should not be interfering with this kind of legal situation. We are ill equipped to do so. Please vote OUGHT NOT TO PASS and let the military handle their own situations as they deem fit.
Thank you.
