

William Phillips  
Auburn  
LD 511

I support a safe bicycle trail between Portland and Auburn. I am a 77 year old retired physician who has been an avid cyclist for more than 50 years, have experienced multiple close calls with vehicles who either unintentionally or intentionally failed to give a safe space when passing. I have friends injured seriously by distracted drivers and one who was killed by a vehicle. A safe bike trail would be an asset to our region as it has been for many quality communities around the country.  
Thank you.
