LD 260

Dear Chairs and Members of the Judiciary Committee:

I'm Nancy Anderson from Cumberland and I'm writing to urge you to give your full support to LD 260. I attended law school in 1974 when my class only included 18% women. My torts professor assigned me a statutory rape case to explicate and all the men chuckled. Given the current national climate I fear we are backsliding on treating women equally. Please ensure that Maine guarantees our rights. Thank you for your time. Sincerely, Nancy C. Anderson
