

Cathy Bryant
Bangor
LD 342

I support LD 342 “An Act to Include Nuclear Power in the State's Renewable Portfolio Standard” and LD 343 “An Act to Direct the Public Utilities Commission to Seek Informational Bids Regarding Small Modular Nuclear Reactors in the State.”

I believe nuclear electricity generation is not only efficient but more affordable.

Mainers need relief when it comes to energy costs. I support LD 342 and 343, and they “ought to pass.”
