

Madeline Bruno
Augusta
LD 29

My name is Madeline Bruno and I am a resident of Augusta ME. As a biker, runner, and person who walks a dog, I regularly utilize the current rail trail. I am writing to show support for the Merrymeeting Trail. The connection of these trails is a great way to connect the communities and serves as another reason for folks to come off the coast and enjoy central Maine. I also support this plan as it opens up even more for people who use wheelchairs and/or strollers to access longer paved stretches for exercise and enjoyment. I urge all members of the Transportation Committee to vote "Ought to pass" on LD 29.
