

Maia Pinsky  
Bowdoinham  
LD 29

My name is Maia Pinsky and I reside in Bowdoinham, Maine. I am writing in support of LD29, which will help to provide additional and vital non-motorized connection between towns. Living in a rural state, and in a rural town, there are limited safe opportunities to walk or exercise outside. As a mother of two young daughters, I am often having to drive to other towns to find safe places to exercise and spend time outside with them. LD29 would offer us such an opportunity, and as my children age, we would be able to use the corridor to commute to neighboring towns for shopping, soccer practice and visiting friends.

Thank you so much for your consideration of this bill and please vote "Ought to pass" on LD29.
