

Peter Walsh
Dresden
LD 29

My wife and I are active seniors who live in Dresden. We would like to do more bicycling and walking in the area, but the roads in the area are just too dangerous to do either. Also, with the advent of electric bikes I predict that many people would be able to bicycle to work, thereby helping the environment. Finally, if I were younger I would open bicycle rental stores in each of the 5 towns adjacent to the trail. This would be a boon to the local economies. Thank you. Peter and Mary Walsh
