

Ruthanne Harrison
RICHMOND
LD 29

I would like to add my support for LD 29. As a resident of Richmond, it would be a great benefit to this area to have a trail for residents to bike, walk, run and enjoy nature. Currently, biking in this area is unsafe, as there are no bike lanes or shoulders on the roads.

A trail would be a boon to the economy of Richmond, as people would stop for food, and to explore shops in the village.

Thank you for considering this bill.
