Senator Carney, Representative Kuhn and Honorable Members of the Joint Standing Committee
Judiciary.

Thank you for the opportunity to address the Committee.

My name is Karina Napier-Anderson. I live in Portland, Maine, and I am here on behalf of
myself, my peers, and my daughters' future.

And I am here today in support of LD 260.

I believe the onus should be on the state to proactively remedy discrimination/inequalities.

I am writing to express my absolute horror at what is unfolding before us with our new
government administration and my deep concern for my two daughters.

Among many reasons, I support this bill because of the opportunity it offers to expand gender
inequity in healthcare.

For example, to deny abortion via Medicaid, after LD 260 is to pass, would be considered gender
inequality.

We need support for women (and my children) to have agency over making decisions about our
bodies. Why are we still here? We deserve better.

Right now, there are many things out of our control. Here, you can take one step to change that.

Thank you for the opportunity to share my perspective with the Committee.

I strongly urge you to vote "Ought to Pass" on LD260.

Thank you,
Karina Napier-Anderson, 41 years
Violet Morris, 13 years
& Evelyn Morris, 27 months
