

Michael Delaney
South Berwick
LD 143

I oppose LD 143 “An Act to Improve Women's Health and Economic Security by Funding Family Planning Services.”

From someone who had 4 miscarriages abortion as a form of family planning is murder. It is reprehensible that the state of Maine, with its current economic stressors and anticipated stressors with our governors current leadership, finds any auxiliary spending necessary that doesn't directly ease and support the children Maine. Maine is beginning to take a hard stance as a negative atmosphere for children. Expect constituents to begin leaving in droves. It is disgusting what has happened to our beloved state of Maine. I with my family will be leaving April first for the Pro family state of Florida. Maybe one day you will regain my trust, but at this point I doubt that, as I am sure no one even reads these statements anymore.
