LD 29

As a resident of Topsham, Maine I can see great benefit to having a protected trail to safely travel between Topsham and Gardiner, and all the places between. Currently I have two young children who are just beginning to be comfortable riding bicycles and I am limited as to where I can feel safe riding bikes with them. I believe the Merrymeeting Trail would greatly benefit local residents, visitors, and add incredible benefit to a community who would welcome additional ways to access and enjoy the beauty of our state.

I thank you for considering my input and urge you to vote "Ought to Pass" on LD 29.
