

Michael LeComte
Portland
LD 468

Dear members of the Joint Standing Committee on Agriculture, Conservation, and Forestry.

My name is Michael, I am a resident of portland, and I am here today as a shopper, brother to farmers, volunteer to food distribution networks. I am writing to express my support of LD 468 – An Act to Address Food Insecurity by Helping Maine Residents Access Locally Produced Food. This program gives many the opportunity to access local food. This program is essential to community and healthy sustainable agriculture. Please consider supporting this program.
