LD 451

Chair Lawrence, Chair Sachs and members of the EUT Committee

I support LD 451.

Better safe than sorry. All these solar and wind projects make a load of money and can afford to test for PFAs. Are the profits obtained by the developers of these projects more important than future risks left behind? These projects can cover many acres. We can't chance indiscriminately allowing this cleared land become unusable as these projects conclude their usefulness.

Thank You. Clayton McKay. Dixfield
