LD 124

I STRONGLY URGE you to vote OUGHT NOT TO PASS on LD 124, An Act to protect the right to food. This has nothing to do with getting food to the hungry. It has everything to do with Agenda 21. If you aren't aware of the ideas behind this Agenda, it is to basically herd the people into housing areas and giving the planet back to the animals. This is a very short version of what the UN Conference on Environment and Development in Rio de Janiero in 1992. There have been several since. This was a group of people who felt that they knew what was best for the world and the environment. They advocated for taking over land and directing people to grow food and to not eat the animals or meats of the land. It was a very atheistic approach to our world. I believe we should be goo shepherds of our planet, but I also believe God gave us this Earth and all the implements we need to care for ourselves and our families. The essence of this bill is to turn each town in Maine into a "garden!" I say the people should be able to decide what they want their town to look like and be. No legislation from the top! Thank you for voting OUGHT NOT TO PASS on LD 124.
