As a Mom of 4 kids, I support LD 576 because I hope they can stay in Maine to earn a living after they graduate from high school. I work for a co-op and believe in the long term stability of the co-operative business model. LD 576 will help create employee-owned Maine jobs. Research shows that young workers in employee-owned companies are in much better financial shape with 33% higher wages, 92% higher household wealth, and 53% higher job tenure. Please pass LD 576.
