

Katherine Bessey
Sumner
LD 415

Dear Honorable Committee,

I am writing in support of the LD 415 - An Act to Support Hunger Prevention in Maine.

This bill will provide deeply necessary ongoing state funding to support hunger prevention efforts in Maine. By supporting the work of nonprofit partners that provide statewide hunger relief services, the DACF will continue to do its part to address food insecurity across the state in a deeply community-informed way, ensuring that these critical services have consistent financial support to help vulnerable populations access necessary nutrition resources.

Please support of the LD 415 - An Act to Support Hunger Prevention in Maine.
