LD 303

Please do not repeal LD 2130 An Act to Prohibit Unauthorized Paramilitary Training.

When I first read a Neo nazi group called "Blood Tribe" had bought land in Maine and was intending to create a training center in our state, I was horrified. I have always thought of Maine as a peaceful place to live and it makes no sense to me that any such thing could ever be allowed here. LD2130 reassured me that our law makers had the interest of most Mainers at heart and that I could continue to live a quiet and peaceful life here.

It is beyond baffling to me that anyone could want to repeal this act! How could this ever bring anything but violence and danger into our state? LD303 is an awful proposition and I question the motives of the people trying to put it forward.

Please, please, please!! Do not allow LD 303 to go forward! Please choose peace and civility so we can keep Maine a safe place to live.
