LD 143

I have been a clinical social worker for 29 years. Most of those years I have spent serving children, adolescents and their families. I am committed to protecting children. I learned early in my career that children have precious few rights. I support LD143 because children need us to protect them. And to protect children we must support parents. When we fail to support women we fail our children. Our children are our future. They need us to show them we care.
