

Chair Lawrence, Chair Sachs and Esteemed Members of the EUT Committee

I Oppose LD 810 **An Act Regarding the Approval of Transmission Lines**

This bill should not get an “Ought to Pass” and it should not get an “Ought Not to Pass”. It should get an “Ought to Be Passed Into the Wastebasket”

This bill stands in contempt of our constitution and freedom of expression. It is downright partisan politics or as has been heard said : **“A primal scream from a dying regime.”**

You have been elected to protect the people's rights and can consider this testimony as a “petition to the government for a redress of grievances.”

This bill is government takeover. It is government gone berserk with power.

Please, stop embarrassing yourselves. This bill has a court proceeding written all over it.

Respectively Clayton McKay Dixfield
