Bangor
LD 658

I support LD 658 “An Act to Lower Property Taxes by Increasing the Homestead Property Tax Exemption.”

This bill increases the property tax exemption for a homestead from \$25,000 to \$50,000.

We have the fourth highest overall total tax burden in the nation. Maine needs working homeowners to fund our government. If we make it increasingly difficult for people to remain in Maine, we will continue to lose our tax base. Offering some relief benefits the state as well as the home owner.

I support LD 658 and any other property tax relief, and it “ought to pass.”
