

Eddie Furbush  
Waldo County  
LD 825

Hello, my name is Edwin Furbush, I am sending this email to you today as a life long resident of the State of Maine. I live in Waldo County, and have just now had this bill brought to my attention.

Unfortunately with such short notice I will not be able to attend, however, I pray my email in some way helps make a difference.

I am 100% in support of passing the bill "An Act to Prohibit Geoengineering, Including the use of Cloud Seeding, Weather Modification, Excessive Radio Waves and Microwave Radiation"

I find it incredibly stressful that we find ourselves in times that such bills are needed. However I have great hope that this bill will pass and I am grateful to you for working on this bill.

Please let me know if there is anything more particular you need from me in order to support the passing of this bill.
