

Craig Flood
Vassalboro
LD 832

To the Maine State Legislature,

Thank you for taking the time to hear our concerns, read and hopefully support bill LD832 submitted by Senator Richard Bradstreet.

Vassalboro's population is approximately 4,500 with approximately 1800 households.

200 of these households have been saddled with the unimaginable cost of several million dollars, for a once aging sewer system that has been updated and is now connected to the Winslow sewage system.

Prior Vassalboro Sanitary District board members decisions and state laws have led to this unprecedented financial burden on 200 households.

We need your help with financial assistance.

Our Main and side streets are at risk of losing our citizens, young and old due to this huge financial burden.

Please help us remain in these homes.

Sincerely,

Craig Flood
626 Oak Grove Road Vassalboro, ME 04989.
