

Sidney Block
Northport
LD 226

Before you vote on LD 226, I urge you to visit the area in person by sea from the bay into Long Cove. You will see Sears Island to your right and Mack Point to your left. It will be obvious which site would be better to use as the construction area for a proposed sea-based wind farm (or any other major industrial project in fact). I urge you to vote for both LD 226 and LD 735.
Thank you
