LD 698

I would like to support LD 698 because shelter providers need more funding and if this does not pass our shelters will close and you will see an increased number of homeless people without any assistance. By raising funding from \$7.16 to \$19 this would ensure most shelter would be able to stay open. Our citizens deserve better, and they deserve a place to sleep which is not in the streets or a park bench. You have the power to make this happen by supporting LD 698. Thank you for your time and I hope you do the right thing.
