I support LD 839 “An Act to Lower Consumer Electricity Costs by Prohibiting the Recovery Through Rates of Costs Attributable to Net Energy Billing.”

If the legislature thinks subsidizing “green energy” is a good idea, they should pay for it like any other pet project and use tax money that’s been appropriated to do that, rather than having every rate payer in Maine foot the bill, including fixed and low-income people.

Let’s drive those electricity costs down, not up!

I support LD839 and it “ought to pass.”
