Support LD 775

Members of the committee, I am in support of this proposed bill LD 775 "An Act Requiring Voter Approval of Legislative and Gubernatorial Pay Increases."

This bill requires that an increase in the annual salary of the Governor, the Senate, and House of Representatives must include the opportunity to be voted on by the legal voters of the state for approval/rejection.

This is common sense legislation. As all Maine taxpayers should have the opportunity to determine if the governor or legislature deserve a pay increase. The fiscally responsible course of action is to put it to a Maine citizens vote.

Again, I support LD 775 and it "ought to pass."

Thank you for your time

Sincerely,

Simon Cavilla
