LD 998

I URGE you to vote OUGHT TO PASS on LD998, An Act regarding an employer's authority to prohibit an employee from storing a firearm in the employee's vehicle. This is a bill to prohibit an employer from not letting an employee have their gun stored in their car at work. There could be a lot of reasons why someone would have a gun in their car. They could feel unsafe in going to their car and feel safer knowing they can protect themselves once they get to their car. Many times, people are the most vulnerable when they are getting into their car. Having their gun there could save their life. Another reason might be that a lot of people go hunting on after they get out of work, and this would save them from going out of their way to get their firearm. The last reason I am going to expound upon is that it is their Second Amendment right to keep and bear arms. That right is not to be infringed upon under any circumstances. It's very simple and very clear. You MUST vote OUGHT TO PASS on LD998. Thank you for honoring the Constitution of the United States of America!
