LD 1109

LD 1109 is a direct violation of our divine 2nd amendment rights and downright insulting to the law-abiding gun owners in the state of Maine. LD 1109 is in direct violation of the United States constitution. These types of laws will not stop criminals from committing violence. A criminal by definition does not follow the laws to begin with, so by passing more laws it does nothing besides restrict the rights of those who are willing to follow them. The good law-abiding people in Maine have every right to possess standard capacity magazines that hold more than 10 rounds of ammunition. The government has no right in any way to tell us what we can use to defend ourselves in a life-or-death situation. People who propose laws such as LD 1109, often have little knowledge of firearms, ammunition, gun parts & accessories and clearly do not understand how they are not only protected by the constitution but are fundamentally part of many people's way of life. I strongly oppose LD 1109 and urge all those who are involved to consider the repercussions this atrocious law will have in Maine.
