

Wanda Allen
Brownfield
LD 795

My name is Wanda Allen and I live in Brownfield. I am writing against LD795. At a time when the world is in great upheaval and people are so conflicted about climate change the only solutions that should be considered are those that protect the planet from further damage. Mining is horrible no matter how you look at it. The chemicals and damage to the land are beyond fixable. President Trump clearly wants profit over planet which will take us down. Time for protection not pedal to the metal on destruction. Please vote NO!
