I VERY STRONGLY URGE you to vote OUGHT TO PASS on LD886, An Act to regulate abortions. I am not for an abortion unless the mother's life is at stake. That said, if she is going to have an abortion, I believe she should be fully informed as to what to expect and what the process will entail. This Medication, drug or chemical process for an abortion seems very harsh and the mother should definitely be apprised of what she is going to have to go through. The person or persons doing this procedure should keep nothing from her or the father of the child. I truly believe that many mothers would opt out if they had known what it was going to be like. I, personally, cannot image it. Knowing what I know after having two children, I can't imagine ending their life. the trauma must stay with these women forever. Please, I URGE YOU vote OUGHT TO PASS on LD886. End some negative aspects of having a medication induced abortion. Thank you!
