LD 975

I URGE you to vote OUGHT TO PASS on LD975, An Act to repeal laws allowing abortions and to criminalize abortions. I realize that this bill probably has no chance of passing, however, I have to say my piece. Having had a great deal of trouble getting pregnant, I know the agony of thinking I would never have children. I was lucky. After 8 years of trying, I had a child. I was joyous! What a gift from God. I went on to have another 4 years later. I would not give up my beautiful children for the world. I do understand that there are situations, i.e., rape, incest, mother's possible death, etc. that may play into an abortion. But for people who can't have babies, it gives them hope of adopting. That being said, I do understand that some abortions are necessary. I would not make those situations a matter of breaking the law for the physician or the mother. However, abortions for profit and convenience need to stop and people need to be made accountable for them. These innocent children deserve a chance to live. Thank you for vote OUGHT TO PASS on LD975. Thank you!
