

Kathleen Barry  
Acton  
LD 871

I support LD 436 “An Act to Prohibit State Agencies from Promoting the COVID-19 Vaccination to Children” and LD 871 “An Act to Exempt All Persons, Including Health Care and Emergency Services Personnel, from COVID-19 Vaccine Requirements.”

LD 436: Let the child’s parents decide what the child is exposed to, not the state, not the education system, not the medical profession, no-one other than the parents.

LD 871: This bill prohibits the State from requiring any person, including health care facility employees and emergency medical services personnel, to receive a COVID vaccine. We live in the United States of America, not a Communist country. We’ve earned our freedom of choice regarding whether we want to vaccinate or not.

I support LD 436 and LD 871, and they “ought to pass.”

Furthermore, it should be an individual choice to decide. I’ve done a lot of research on this vaccine and I’m vehemently opposed to it for all individuals who choose to not get it.
