LD 795

My name is Audrey Rabinowitz, I live inDenmark, ME and I am testifying in against LD 795 - "An Act to Exempt Pegmatite Mining from the Maine Metallic Mineral Mining Act and Establish a Permit-by-rule Process." I am very concerned about the potential harms to our communities and environment by metallic mineral mining. This exemption erodes current protections and puts our mining communities at significant risk. Why would our elected representative want to do such a thing? Please do the right thing and vote against LD 795.

Thank you.
