

James Gerrish
Rockland
LD 1073

Greetings Senator Tepler, Representative Doudera, and ENR Committee Members,

My name is James Gerrish, I live in Rockland, ME and I am testifying in support of LD 1073 "An Act to Amend Provisions of the Maine Metallic Mining Mineral Act to Advance Health Equity and Improve the Well Being of Vulnerable Populations".

AND

I believe it is crucial to protect our public lands from destructive and polluting activities. The health and safety of our state's population is vastly more important than the ultimate act of putting money into the pockets of those who seek to destroy the pristine land of our state.

Regards,

James Gerrish
