LD 133

Thank you for hearing my testimony I most definitely am for LD 133

My every morning starts with Barking dogs not of one but of 4 2 German Shepherds 1 bull mastiff and a small dog whom are left outside for hours while they're own leaves, I get that dogs bark ok for 15 mins ok fine, but 15 mins x4 dogs is 60 mins times 3 or 4 times a day that's 4 hours of barking and disturbing my peace my family's peace, it's more than 4 hours . It's a shame I'm a tax payer, Animal Control is friends with our neighbor which why my complaints are totally ignored, I've been reaching out since November 2024 all calls go through Cumberland County Sheriffs Office, whom then reaches out to the ACO, whom does not even have the decency to call back.. as the sheriff's state that's not they're department to deal with animal behaviors or it's not considered disturbing the peace nothing they can do.. it's an Animal Control violation. What it should be concerned as an owner violation and written warning should be given for these people whom get these dogs whom can provide there animals with proper behavioral training and are careless on common sense not to let their dogs bark, yelp and disturb others around them. Let's face it pure ignorance on the owner behalf.. the constant behaviors of my neighbors dogs barking and disturbing my family's peace is really taking a toll on our activities of daily living and mental health. I feel that our every day of placing complaints on the Dog Nuisance is most definitely overlooked and excessive barking should be dealt with
