I support this bill. This bill removes the requirement for individuals carrying a concealed handgun without a valid permit to immediately inform law enforcement officers during encounters such as arrests, detainments, or routine traffic stops. By repealing this provision, the bill supports the rights of responsible gun owners by reducing unnecessary legal obligations and potential penalties. This change respects the privacy of law-abiding citizens who choose to carry concealed handguns and eliminates an additional burden that could lead to unnecessary legal consequences for non-compliance. The bill strikes a balance between upholding Second Amendment rights and reducing overly stringent requirements for those carrying concealed firearms.
